**...Striving For Solutions...**

MOPC has spent the past 25 years working very hard to provide services to the good people of North Central West Virginia, Western Maryland, and Southwestern Pennsylvania.

We are open full-time in Clarksburg and Morgantown and part-time in Oakland, Maryland.

We have grown from 4 people to 20 (full and part-time) to meet the requests for our services.

**“Striving for Solutions”** let’s you know how we approach our patient’s needs.

**Our goal is to create solutions.....**

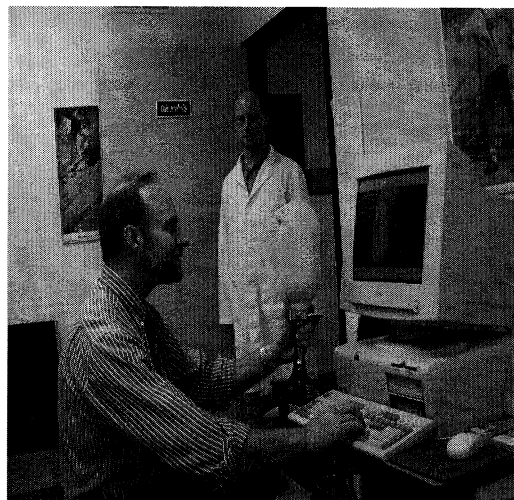

**The following are common conditions we treat:**

- Upper and Lower extremity amputations
- Orthopedic problems
- Neurologic disorders
- Spinal cord injuries
- Strokes (CVA)
- Pediatrics
- Spinal pain
- Diabetic foot problems
- Cranial Remolding Orthoses
- Walk-Aide Electrical Stimulation orthosis

We can help you work through the myriad of prefabricated, custom made, low tech, and high tech devices to help your patients. Every device has its good points and bad points. We can help work through the choices to pick or build the best device for each case .

Just pick up the phone and ask .  
800-598-MOPC (6672)

MOPC’s in-house 2000 square foot fabrication lab (in Morgantown) allows us to fabricate most of our custom-made devices on-site, allowing us to pay attention to the patient’s needs. We strive to maintain the highest standards in craftsmanship and service.

A large part of our definition of service is coordination with other members of the healthcare team. We feel it is very important to helping the patient’s specific needs and optimal outcomes...

To better understand the nature of our service we invite you to visit MOPC. It is our sincere hope to gain your confidence and trust. If you have any questions about our services, please do not hesitate to ask.
